- 3 We've got nothing to lose. I think we should..... .

4 I hate all that silly romantic..... !

5 After the terrible forest fires, many people have..... nothing.

## 7. Read the text below.

### How to stay healthy

**A** Finally, remember your health is very important. It's only when we don't feel well that we realise this, so make sure you look after yourself and keep fit!

**B** So what can we do to stay healthy? If you know you are feeling stressed or not very well, there are many things you can do to help yourself feel better.

**C** Secondly, how often do you go to the doctor? Does your doctor just give you a prescription and send you away, or does he really listen to you and try to understand what is wrong?

**D** Life today is very stressful. If you go to school, you have the stress of exams and getting good grades. If you go to work, you have the stress of too much work, unpleasant colleagues or very long hours. Because of our way of life today, many people complain of feeling unwell. They feel tired all the time or they have headaches or backache.

**E** First of all, you should try to take regular exercise – go swimming or jogging at least three times a week. You should have a balanced diet – eat lots of fresh fruit and vegetables and cut down on sugar and processed foods. Finally, you should try to sleep between seven and eight hours a night and you should have a relaxing bath before going to bed.

**Put the paragraphs into the correct order.**

1..... 2..... 3..... 4..... 5.....

**Mark the statements T (true) or F (false).**

1 Doctors don't listen to their patients.

2 Doing exams is stressful.

3 You should take exercise no more than three times a week.

4 You should eat no sugar.

5 We forget how important our health is.

## 8. You have just received this email from your penfriend. Read it carefully.

Hi Anna,

How are you? I hope you're not spending too much time on the computer!

Last time you wrote to me, you told me that your parents were really worried about you as you're always sitting upstairs on your own in front of that screen. I guess they don't really know anything about computers, do they? They probably think you're just wasting your time.

My parents don't allow me to use the computer more than one hour a day. So I have to decide if I want to write emails, surf the net or play computer games. An hour goes so quickly, so this email will have to be short!!

Let me know how you are.

Love

Natasha

**Now write your reply explaining why you like being on the computer so much (emails, chat rooms, surfing the net, computer games, designing your own website...).**

Dear Natasha,

Златка Енчева - [zlattka@abv.bg](mailto:zlattka@abv.bg)
